CREIGHTON SUNDAY SCHOOLERS PICNIC

The Creighton Sunday school picnic which took place yesterday at the Severinghaus orange grove eight miles northeast of the city was indeed a delightful occasion. About 200 people gathered for the big feast of food and fun, and today such fellows as the clerk of the superior court and the probation officer and the pastor and many others who are not accustomed to base ball, sack races, big feeds, etc., have a feeling much akin to rheumatism, though less difficult to cure, and they will all be ready for the big P. T. A. picnic at the same place on July 4th. The home grounds at the Severinghaus place are ideal picnic grounds.

Hire a little salesman at The Republican office. A Want Ad. will see more customers than you can.

DEAF

The Little Gem Ear Phone

awarded the GOLD MEDAL HIGHEST AWARD for Ear Phones in connection with all hearing instruments Panama Exposition.

This proves conclusively the "Little Gem" is the best hearing device ever invented. It is very neat in appearance and many extremely deaf people have marveled that such a small, inconspicuous instrument could accomplish such seemingly impossible results, and many who have never been able to hear before, find they can hear perfectly with the wonderful Little Gem.

The Auto Massage stops head noises and improves hearing. Call today for free demonstrations. Tell your deaf friends about it.

SURVEY BOARD AGAIN FAVORS VERDE DAM AND PUMP PLANTS

Supplemental Report Rendered Yesterday to Bring Former Action Delimiting Project Into Harmony With New Conditions

Repeating its endorsement of the storage of Verde water by means of a dam at Horseshoe bend and of pumping plants with which to supplement water supply for the irrigation of the Salt River valley, the board of survey has rendered its official report to the reclamation commission. The board did not touch upon the subject of apportioning water rights between lands entering conflicting claims.

Chairman Frank W. Hanna left night before last for his farm in Iowa. Member Ad Farish leaves today for Ray. Member Frank Asplund went back to his desk in the hydrographical department of the local reclamation office.

While restricted by official red tape from giving out the substance of its findings, the commission did not deny that it had found conditions favorable to the wider distribution of water over the project. Specially important in

this connection is the rapid rise of the ground water plane with the passing of many years of irrigation. Irrigation here, as in every place it is practiced, must be followed by drainage. Nature has built up a soil structure, equipped to carry off the few inches of annual rainfall permitted to this region. Man comes along and piles three to six feet of water on top of that rainfall, and clogs the subterranean outlets. The rise of the water plane is an inevitable consequence.

Pumping is being demonstrated more and more successfully as a means of watering large tracts of land. This method will tend to lift the excess water from below the surface and spread it on the top, where the sun exhausts the moisture. In this way, irrigation becomes a sort of endless chain proposition. But irrigation by canals cannot be dispensed with, however.

The report was rendered comparatively easy of compilation by reason of the immense quantity of data gathered by the original survey board, and found available for use by the second board. Similarly, the commission will be able to speed up its consideration of the report, and will probably have the copies prepared for publication within a comparatively short time.

SILVER SERVICE TAG DAY COMING

Entire State Will Feel Hand of Fair Taggers On May 30th. Funds to Pay for Battleship Arizona Silver Service

If on May 29th, you are approached by a good looking young lady, and requested to purchase a tag, don't fail to do so. It is for a good and justly celebrated cause. The people of the state of Arizona have through the committee appointed by the state chamber of commerce, bargained to purchase a silver service for the good ship Arizona soon to be put in commission as the latest thing in Uncle Sam's fighting fleet. In order to raise the funds for the service, the committee has decided that a tag day is the easiest and most lucrative means to attain that end.

Every town in the state will have out organizations working all to the end that the service may be paid for in the least possible time.

The committee in charge of the state wide affair is L. W. Mix of Nogales, Allen T. Bird of Nogales, W. E. Berg of Flagstaff, L. S. Cates of Ray and Tom E. Campbell of Phoenix.

The general committee of the chamber of commerce, will meet this afternoon at two o'clock to work out details for the handling of the tag day affair.

The silver service will be finished about the last of June, and on the fourth of July will be put on exhibition at Flagstaff, after that it will be taken to every town in the state, and the people given an opportunity to see what they have purchased.

WOMEN'S SOCIETY MEETS AT NORTON'S

Large Number of Women Meet on Palatial Grounds of Dr. Norton Near Fair Grounds

About three hundred women, members and friends of the Presbyterian Ladies Missionary Society, gathered at the home of Dr. J. C. Norton yesterday afternoon and evening, and enjoyed the annual picnic of that society.

The picnic at Dr. Norton's has grown to be an annual affair, and each year grows more elaborate and more enjoyable. The handsome grounds were illuminated, and decorations of a

NORTHWESTERN U. GATHERING

F. M. Stahl was elected president and an organization formed for annual banquets at a dinner attended by former Northwestern University students at the Arizona club last evening. Yesterday was reunion day for the Northwestern alumni all over the world.

Music, speeches and reminiscent toasts were on the program at this characteristic college reunion. Yells were given.

Thirty-one sat down at the banquet board, presided over by Rev. Ray C. Barker. Among the members were M. L. Allen '79, the oldest and Phil Peterson '15 of Mesa, the youngest. Other affairs of a similar sort will be given on the anniversary of this one.

The officers consist of Stahl, president; Franklin McCuskey, vice president; Nellie E. Wilkinson, secretary-treasurer and Mrs. H. R. Carson, member of the board of directors with the other officials.

MR. FISHER EXPLAINS WHAT "RED DOG" IS

A large crowd listened with appreciation to Robert S. Fisher's explanation of his old title "The Red Dog," for the lecture he delivered at the Y. M. C. A. Stadium last night under the auspices of the Business Girls club of the Young Women's Christian Association.

Mr. Fisher explained that by the "Red Dog" he meant that unruly member, the tongue. He explained that there are not few "fine tongues" representing America as the meeting place of the nations, where the tongues are trained to talk in unison, the speaker entered, upon the serious side of his lecture, touching the place the American nation has in the scheme of world things.

The address was much appreciated by the young women and their audience. The Indian school band, which played several selections during the program, ended the entertainment with a patriotic air.

Fitting nature placed everywhere. After a substantial lunch had been served, a program of exercises was given by the ladies of the society and girls of the Westminster circle.

Reports for the year's work showed that the organization is in an excellent condition.

HOSS INDUSTRY LEADS TO ARREST OF THREE SUSPECTS

Believing that stolen horses would be presented to the government buyers at the Santa Fe stockyards, Sheriff Jeff Adams yesterday laid a trap. The catch consisted of William Zeller, 322 South Second street, a blacksmith-horse trader, Leonso Espinosa, address not given, occupation same.

P. Castro, ditto. Every stolen horse but one, reported at the sheriff's office in the past six months, has been traced through the alleged combination of these three men, according to the sheriff.

E. E. Jack, Tom Barkeley and William Hauser, of Glendale, and the Government Indian school yesterday identified and claimed animals in possession of Zeller. A cow held at Zeller's place near Alhambra, branded "L. D." was led back to its proper home in the Indian School corral last evening.

Zeller stoutly protested his innocence at an informal inquiry before Assistant County Attorney G. S. Cunningham last night. He remembered every horse trade he had engaged in for several months, and easily knew from whom they had been bought and for how much, to whom sold, and the profit on the sale.

Complaints of losses among stock owners in the valley have been gathered, and the total revealed what Sheriff Adams believes to be a series

of operations by a single horse-stealing combine. Plans had been laid to follow the government horse buyers all the way to Casa Grande, where a thousand head will be inspected next Tuesday, and to Tucson, if need be, to see if any of the suspected animals might be presented.

The inspector notified Adams yesterday that very early in the morning Zeller had presented himself with three animals, for whom descriptions had been furnished. Ed Jack's horse, the finest in a pasture of seventeen at the time of the theft, is a big, bald-faced critter, with four white stockings. The audacity of Zeller in presenting such an easily recognized horse is regarded as little short of amazing by the officers.

At Zeller's pasture near Alhambra are the following animals, thought to have been stolen, and for which Sheriff Adams wants claims put in by those who have misused them: Sorrel mare with colt, brown mare with colt, 2-year-old filly, 2-year-old roan horse, 2-year-old black horse, black horse with shaved mane.

For one of the suspected horses in Zeller's possession, the prisoner last night said he had traded the well-known pacer, "Vinnie B." who made quite a hit last fair week. He said he had traded Vinnie to a man named Wilson on the south side, for the big Gorman coach horse. That horse, Adams told him, was worth \$250. Zeller seemed to doubt it.
